

ADGT 4G/3G

GTR Router Series

GTR40, GTR30

Industrial Cellular Router Series for Industrial and M2M/IoT Applications

PRODUCT OVERVIEW

Industrial router series designed to provide robust and high-speed wireless Internet access over 3G or LTE cellular network for industrial, M2M/IoT and commercial applications, including transportation, energy, smart grid, ATM, vending etc.

Linux-based OpenWrt operating system allows to create secure highly-reliable VPN networks and install user software packages to customize router configuration according to your applications needs.

GTR series includes the following model lines:

- **GTR30** – 3G router line (modem speed – up to 7.2 Mbps).
- **GTR40** – 4G router line (modem speed – up to 100 Mbps).

Routers are manufactured in robust aluminum enclosure and can be mounted on a wall or DIN rail.

Application Areas:

- AMR/AMI systems, smart grids
- Small business, SOHO network
- Power and energy industry
- POS terminals, ATM, vending
- Security systems (alarm, warning, IP video surveillance etc.)

KEY FEATURES

- 2 x Ethernet 10/100Base-TX (LAN/WAN)
- 2 x SIM card slots for channel redundancy
- 1 x USB A (Host/Device)
- 4 x I/O lines (support three operation modes)
- 1 x RS-232, 1 x RS-485. Modbus-TCP - Modbus RTU/ASCII conversion
- 1 x microSD memory card slot
- Temperature compensated real-time clock (RTC) providing high timekeeping accuracy
- Hardware Watchdog timer for router reboot in case of software failures
- Networking: OpenVPN, PPTP, GRE, IPSec, NAT, Firewall, IPv6, DHCP (Server/Client), TinyProxy, NTP, FTP, SIM manager, etc.

ADDITIONAL OPTIONS

- GPS module for precise location determination and high accuracy time synchronization (up to 1 msec)
- Supercapacitor that provides router back-up power supply for two minutes in case external power supply is disabled

GTR SERIES MODEL LINE

	High-Accuracy GPS Module	Supercapacitor

SPECIFICATIONS

GTR 30		GTR40	
NETWORK PARAMETERS			
Frequency Range	HSPA 900/2100	LTE B1/B3/B7/B8/B20 UMTS/HSPA+ B1/B5/B8	
Rate (DL/UL)	HSPA: 7.2 Mbps/5.76 Mbps	4G LTE: 100 Mbps*/50 Mbps	
	WCDMA: up to 384 kbps		
	EDGE class 12: up to 237 kbps		
	GPRS class 12: up to 85.6 kbps		
CPU PARAMETERS			
CPU	NXP i.MX287 454 MHz		
RAM Memory	128 Mb		
Flash memory	256 Mb		
POWER			
Source	DC 10 ~ 50 V		
Consumption	8 W		
Current	400 mA (24V)		
Connector	MicroFit 4-pin		
MECHANICAL & ENVIRONMENTAL			
Dimensions	97 x 78 x 36 mm (L x W x H)		
Weight	180 gr		
Enclosure	Aluminum alloy (IP30)		
Mounting	DIN rail, wall, table rubber feet		
Operating temperature	-40...+70° C (-20...+55° C - for routers with supercapacitor)		
Warranty	2 years		
Relative Humidity	up to 90% at 20° C temperature		
Average Service Life	10 years		
Certifications	CE, RoHS		

* no more than 30 Mbps under real conditions

	GTR30/GTR40
INTERFACES AND CONNECTORS	
Ethernet	2 x RJ-45 10/100 Mbps
USB	1 x USB2.0 A type (Host/Device)
SIM	2 x mini-SIM
RS-232	1 x DB9-M Rate: 1200-15200bps. 8N1
RS-485	1 x 2-pin terminal block. Rate: 1200-115200bps. Termination resistor: connected 120 Ohm
IO lines	x4 Operating modes: voltage measurement, resistive sensors connection, load control. Max. voltage: 50V (max. measurable voltage: 18V). Max. current (per channel): 60mA
SD card	1 x microSD
Antenna 3G/4G	
SOFTWARE AND NETWORKING	
Operating System	OpenWrt (Linux-based)
Network Services	GRE, IPIP, OpenVPN, L2TP, PPTP, PPPoE etc, NAT, MPLS, DHCP (server/client)
Management	<ul style="list-style-type: none"> LuCI web interface command line (SSH)
Protocol Conversion	Modbus RTU/ASCII ↔ Modbus TCP
Reliability	<ul style="list-style-type: none"> dual SIM card slots, hardware watchdog timer, Multi-WAN
Security	IPSec/VPN, Firewall IPRoute, IP/MAC filtering
OPTIONAL	
<ul style="list-style-type: none"> G - GPS module with high accuracy time synchronization unit. 1 x SMA(f) connector for GPS antenna S - Supercapacitor to provide router backup power supply
